

Name: Roland Zeta Regio

Date: July 5, 2023

Course & Section: BSIT 1-1

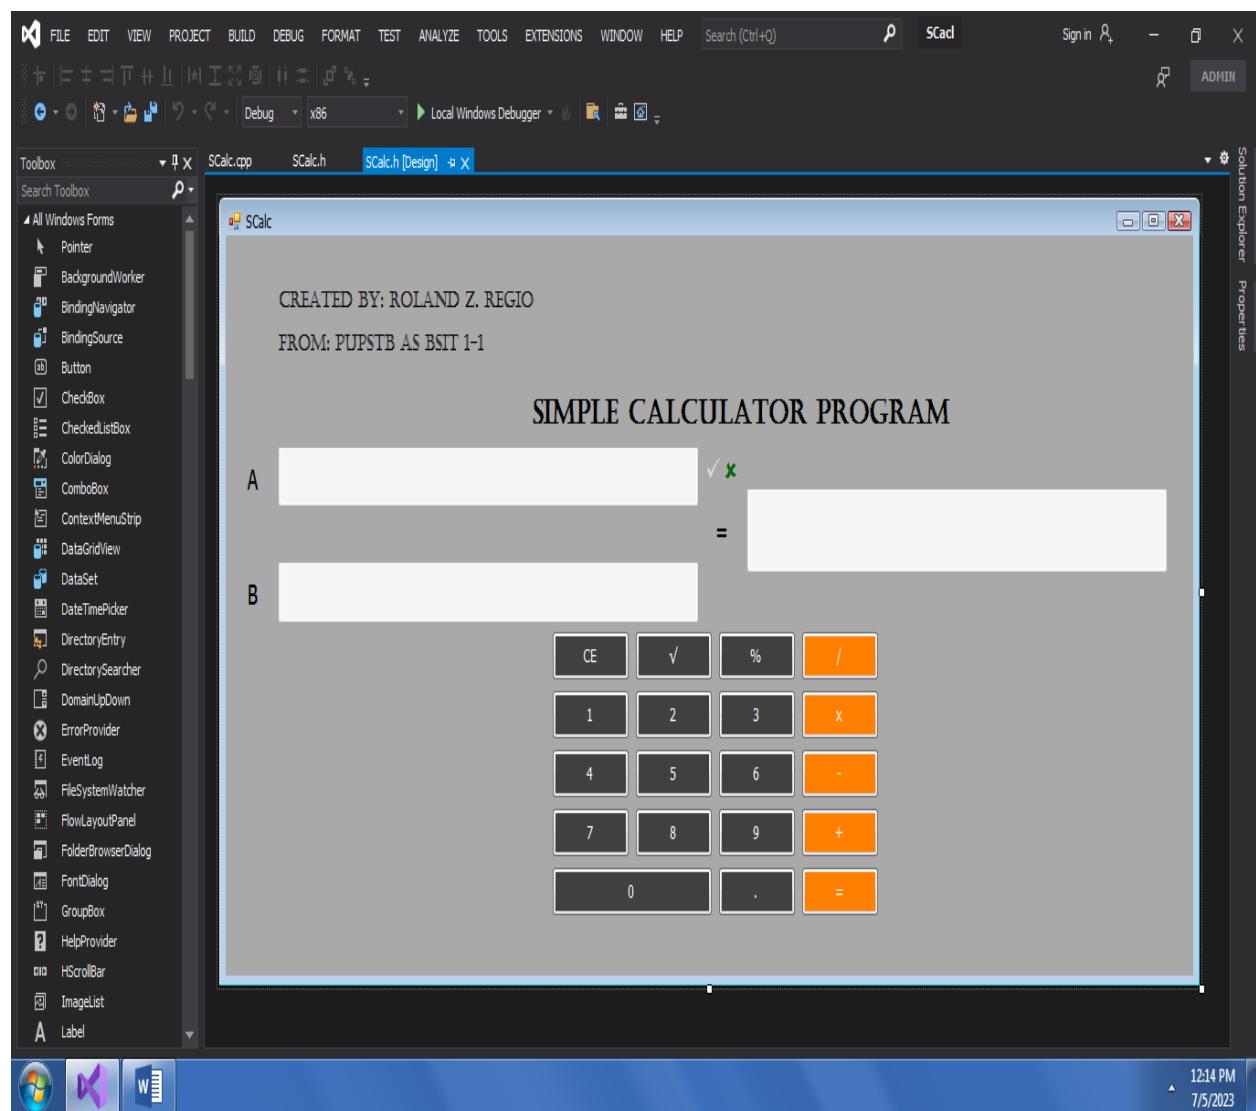

Professor: Ma'am Marienel Velasco

COMPUTER PROGRAMMING 2

Activity#4: Simple Calculator (CODES & OUTPUT)

PROGRAM CODES

Program Design

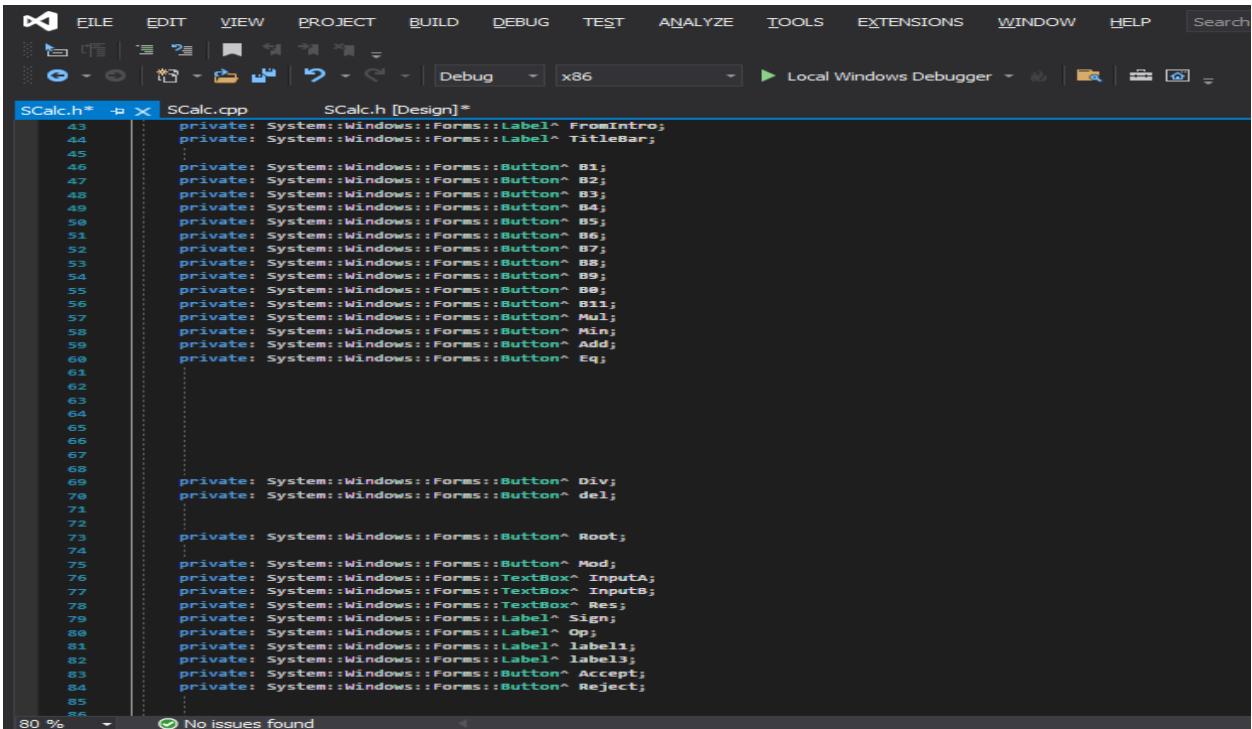

Program CPP Codes

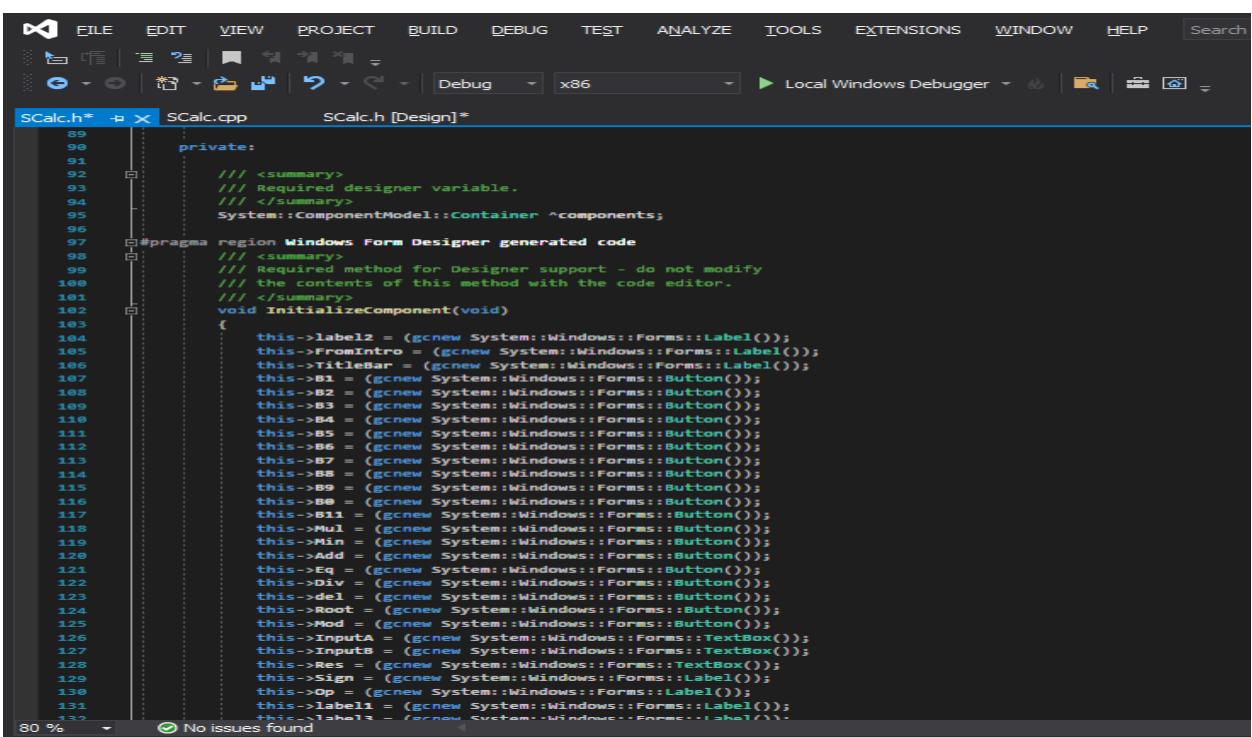

```
1 #include "SCalc.h"
2 using namespace System;
3 [STAThreadAttribute]
4 void main(array <String>^ args)
5 {
6     Application::EnableVisualStyles();
7     Application::SetCompatibleTextRenderingDefault(false);
8     SCalc form;
9     Application::Run(% form);
10 }
11
12
```

Program Header Codes

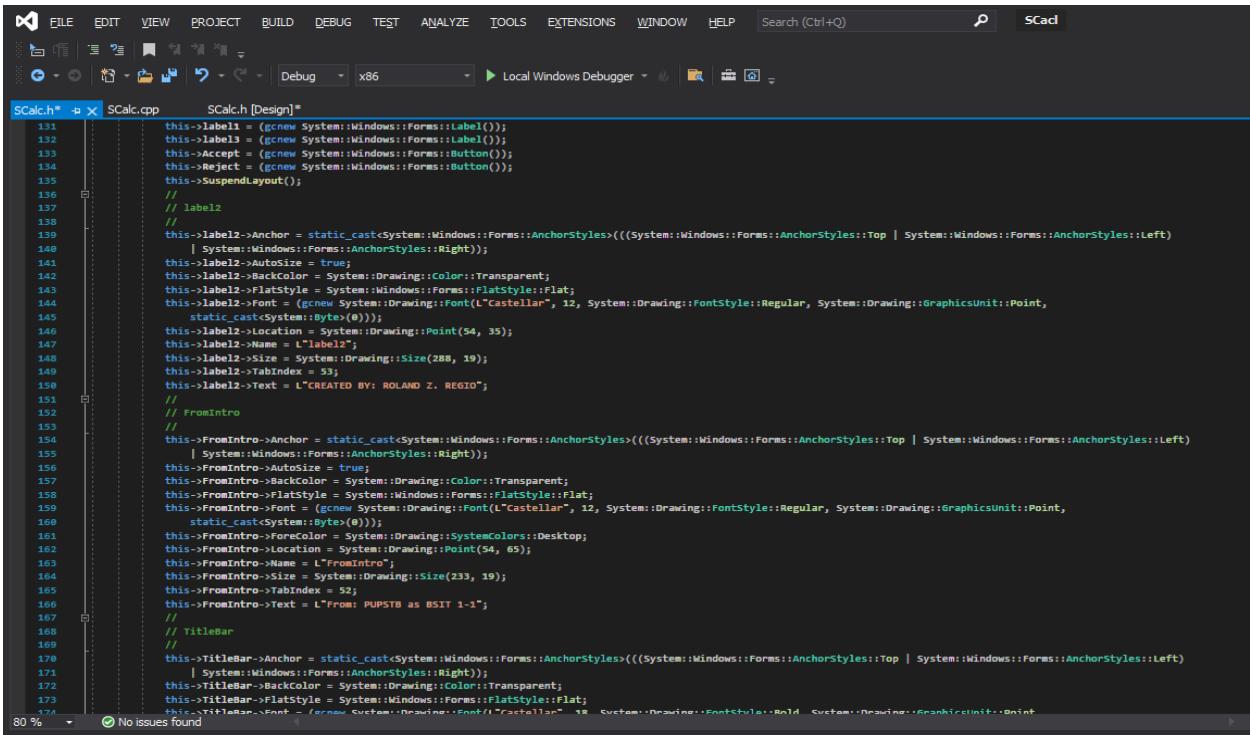

```
1 #pragma once
2 #include <iostream.h>
3 #include <math.h>
4 double ans, a, b;
5 int flag = 0;
6 using namespace std;
7 namespace SCalc {
8
9     using namespace System;
10    using namespace System::ComponentModel;
11    using namespace System::Collections;
12    using namespace System::Windows::Forms;
13    using namespace System::Data;
14    using namespace System::Drawing;
15

80 % No issues found
```

The screenshot shows the SharpDevelop IDE interface with the following details:

- Menu Bar:** FILE, EDIT, VIEW, PROJECT, BUILD, DEBUG, TEST, ANALYZE, TOOLS, EXTENSIONS, WINDOW, HELP.
- Search Bar:** Search (Ctrl+Q).
- Solution Explorer:** Shows 'SCalc.h' and 'SCalc.cpp'.
- Toolbars:** Standard toolbar with icons for file operations.
- Code Editor:** The main window displays the C++ code for 'SCalc.h'. The code defines a class 'SCalc' with various member variables and methods, including a constructor and several member functions like 'del_Click' and 'Root_Click'.
- Status Bar:** Shows '90 %' and 'No issues found'.

PROGRAM OUTPUT

Minimum size

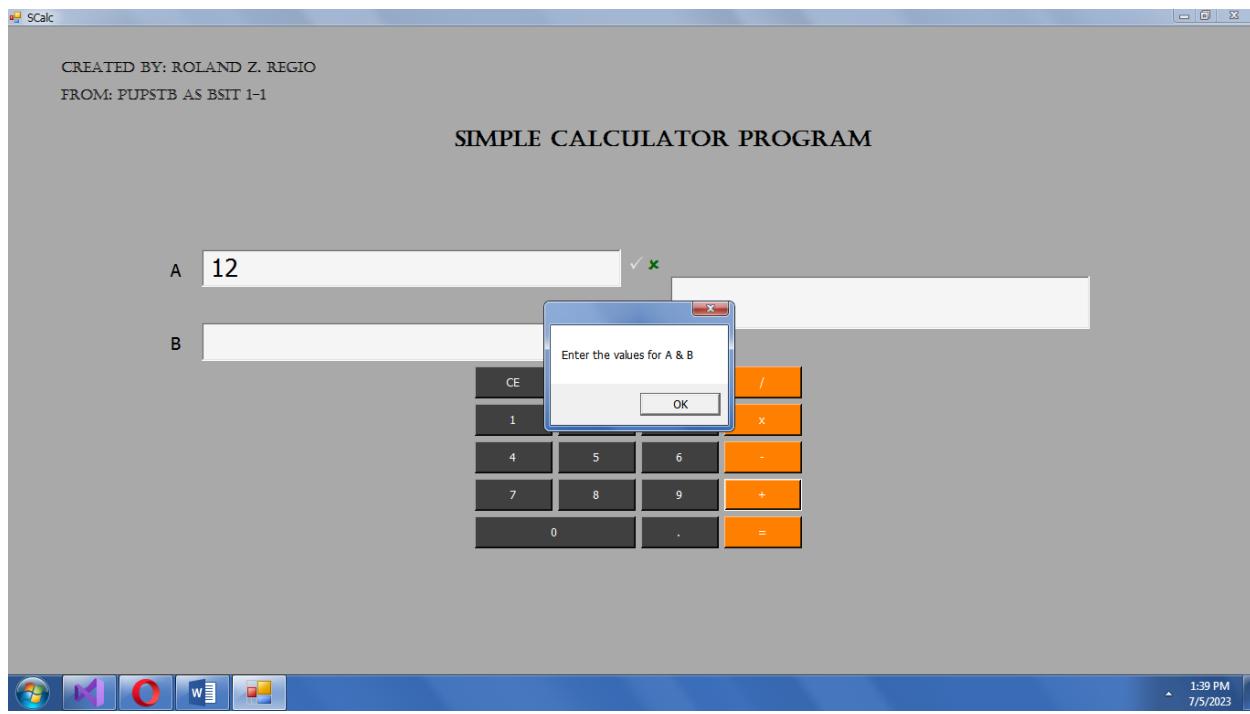

Maximum size & Addition Function [Add A and B][Addition Button]

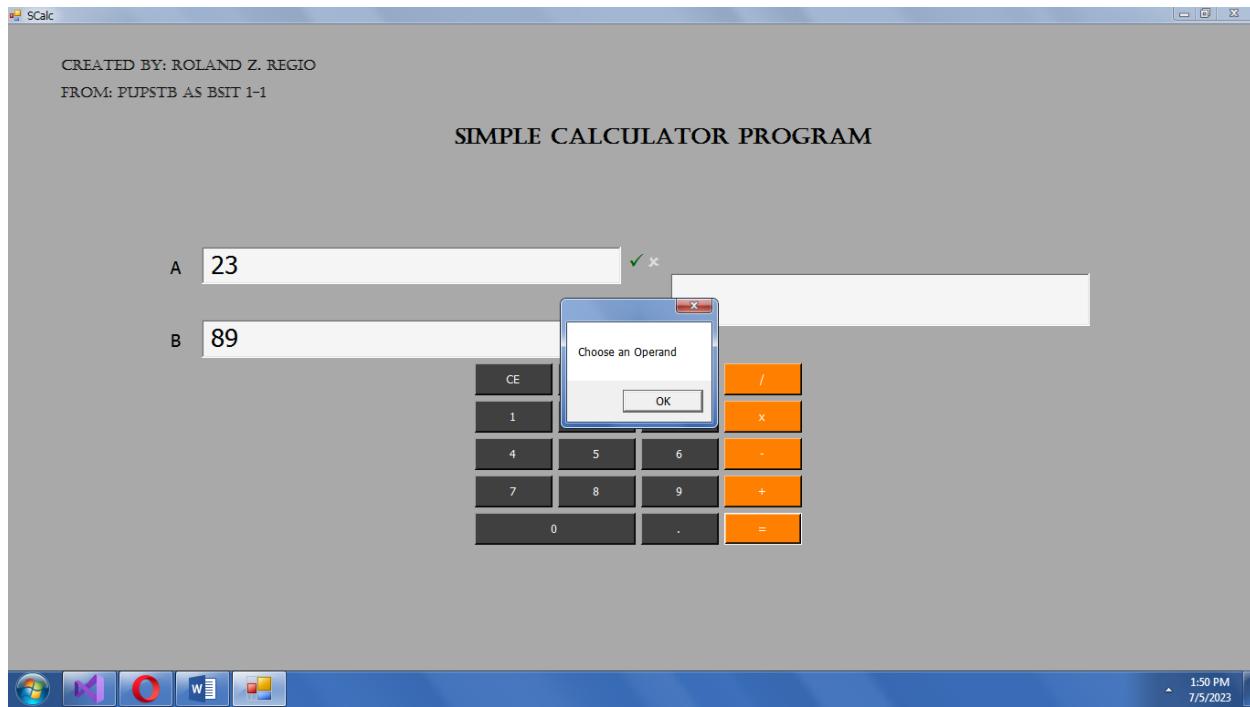

- Type input value for A & B.
- Click the Operand (Addition). Then, Click the Equal Button for Answer.

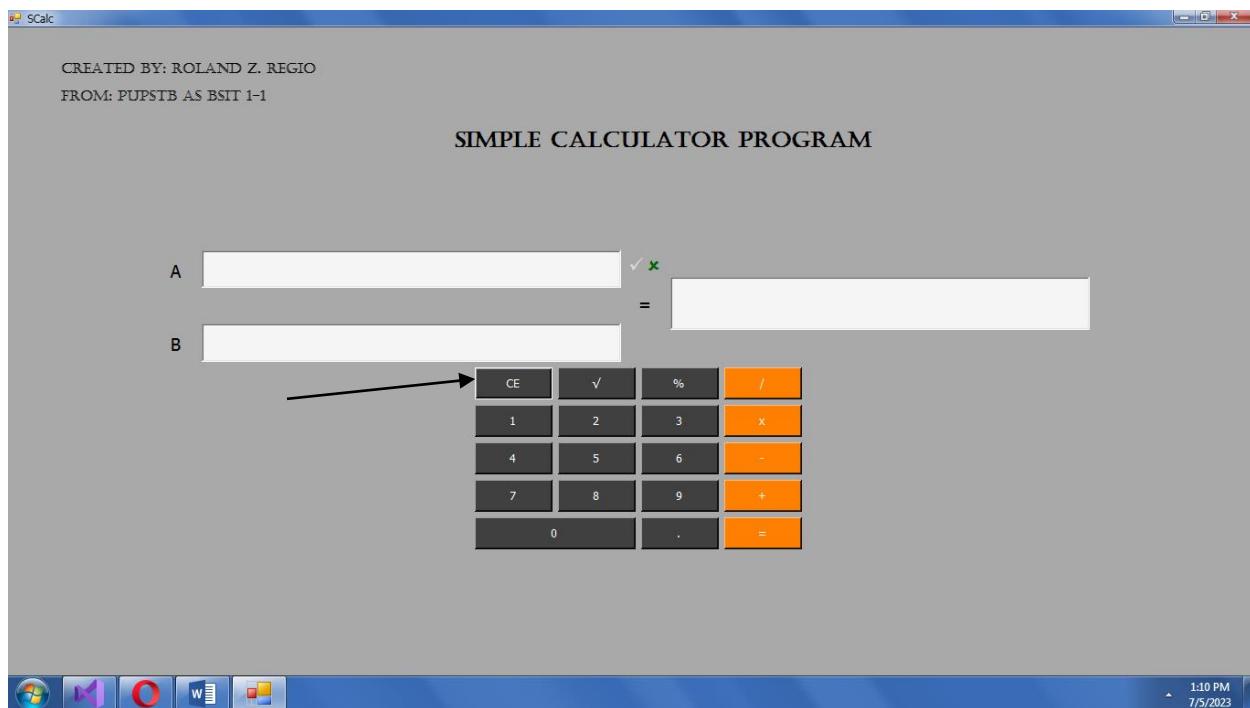

Operand Function Message Box [If user click an operand or equal button but one of A & B is empty except if Square Root function is clicked]

Equal Button Function Message Box [If user click Equal button without an Operand]

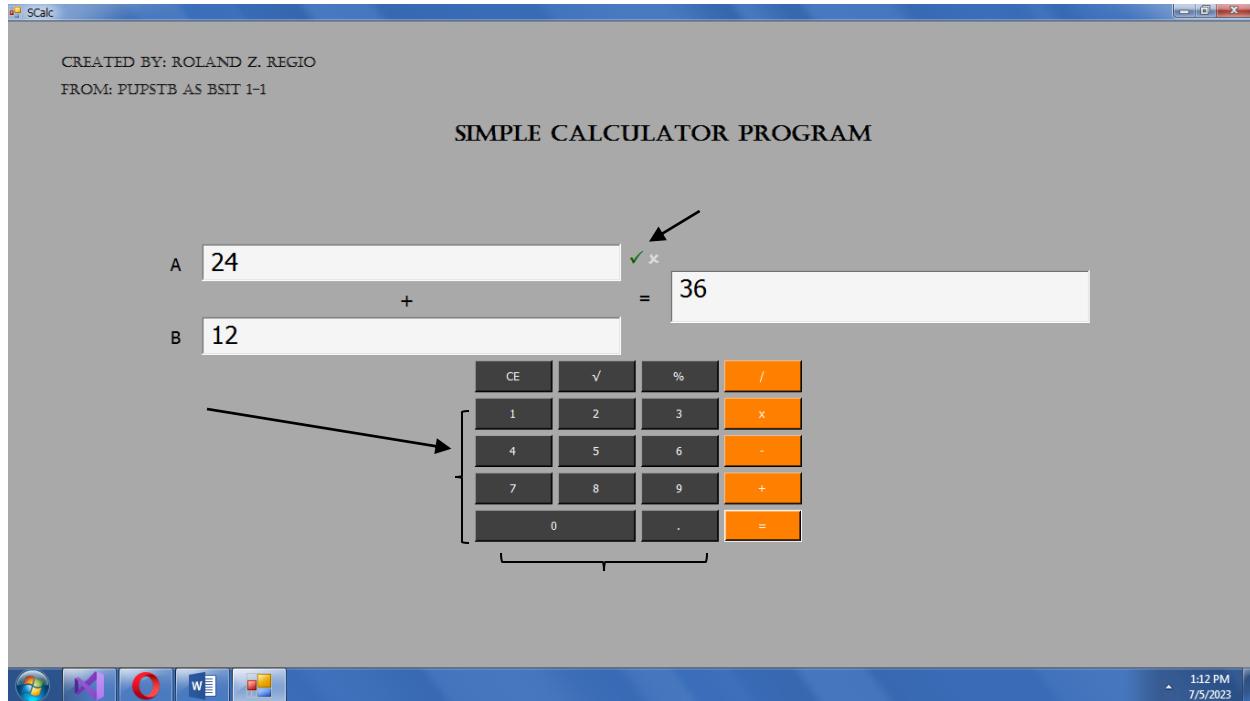

Clearing Entries Function [CE button] (Clear A, B, Operand Label & Answer)

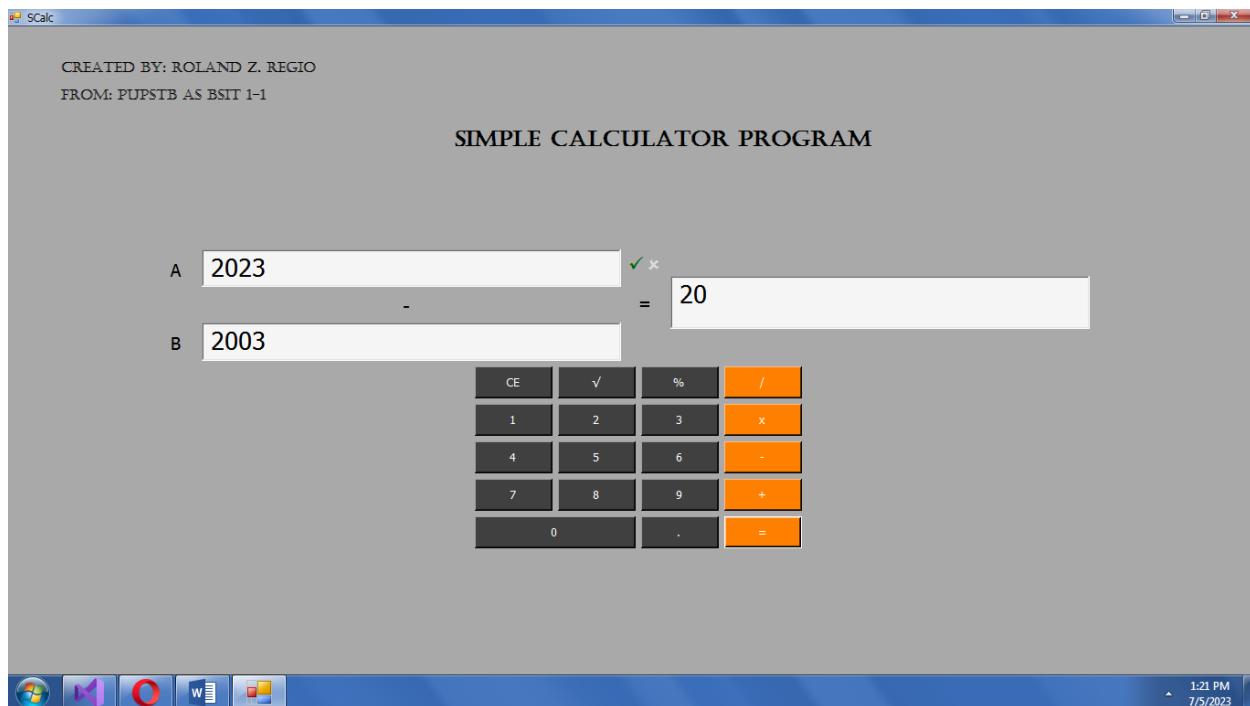

Using Numpad Function [0-9 & "." Buttons]

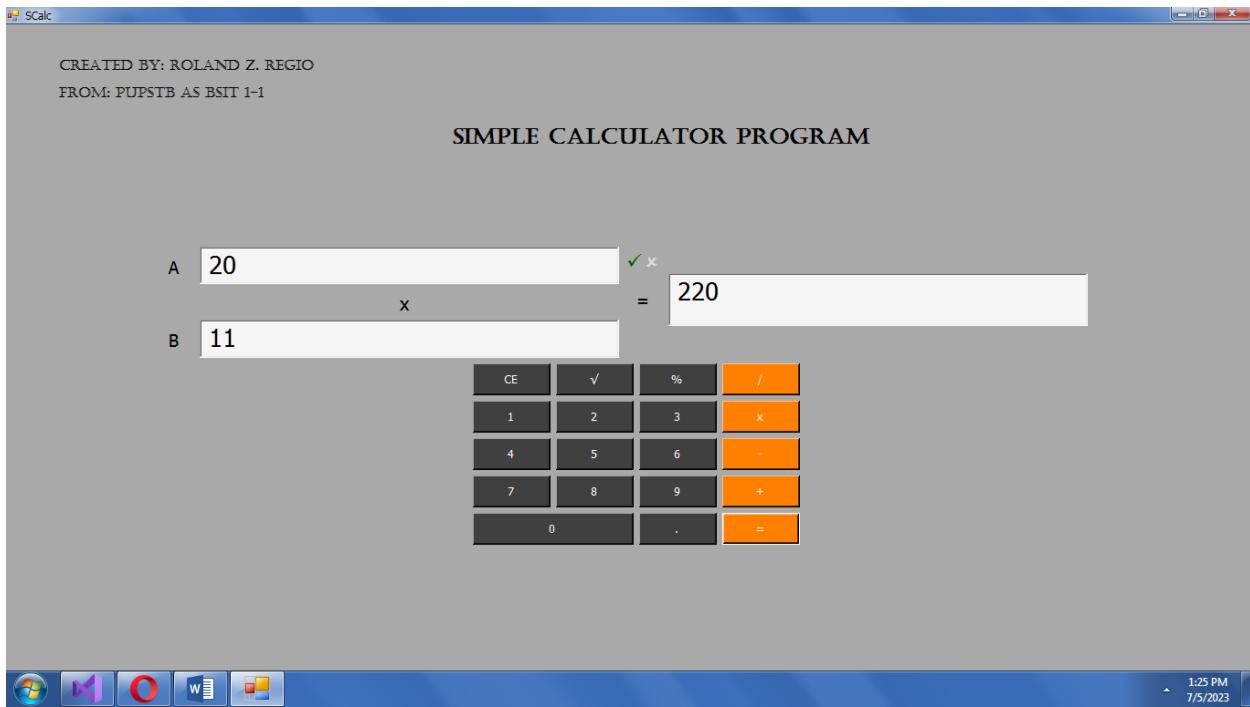

- (When \times is click) InputA is getting the Numpad input and \times turn green.
- (When \checkmark is click) InputB is getting the Numpad input and \checkmark turn green.

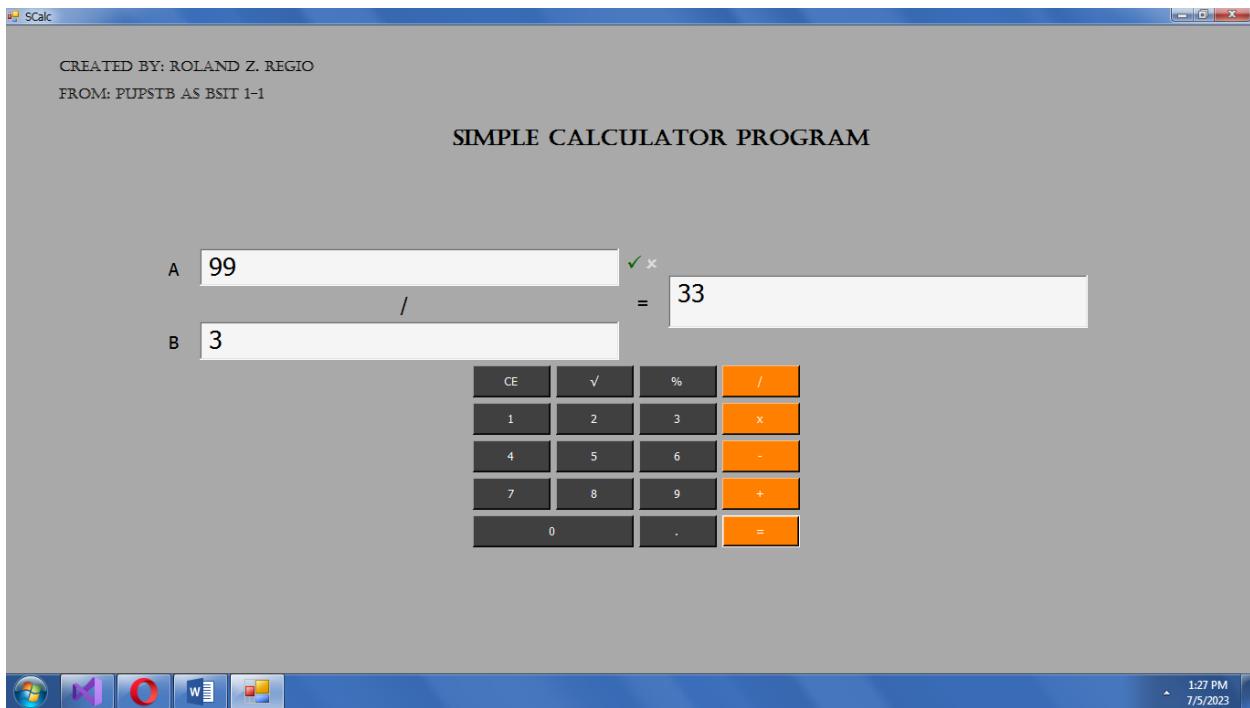

Subtraction Function [A – B][Subtraction Button]

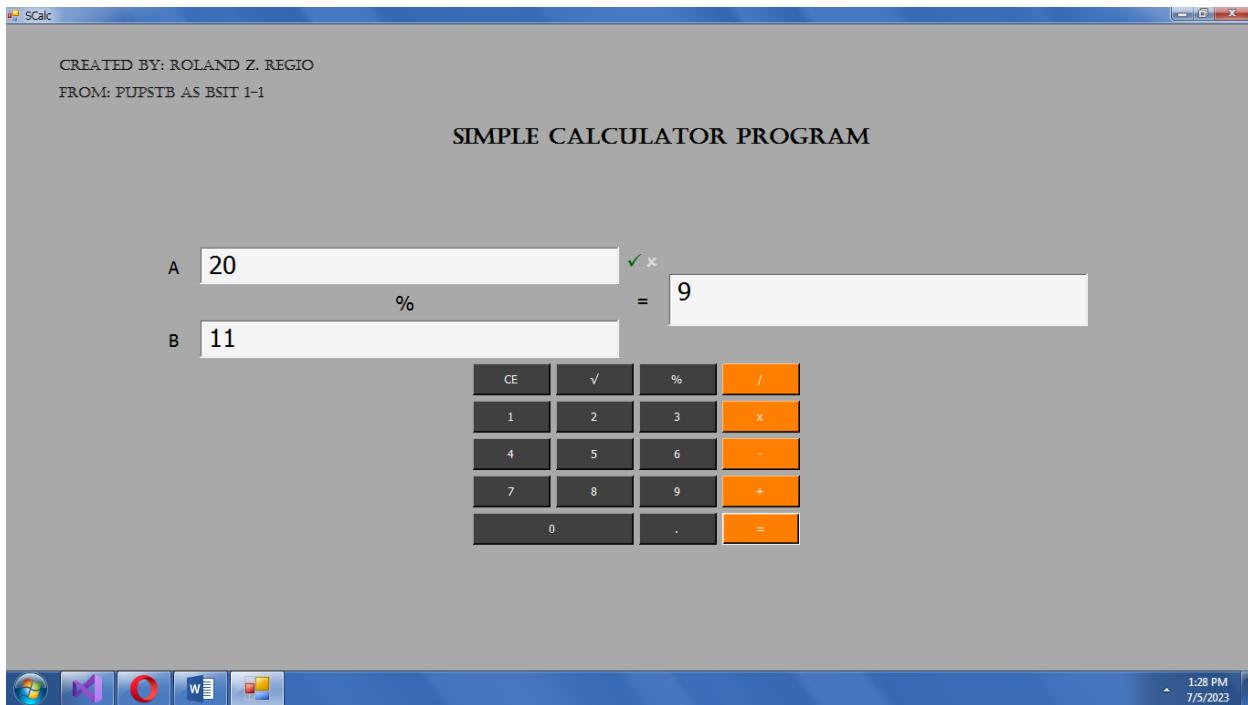

Multiplication Function [A * B][Multiplication Button]

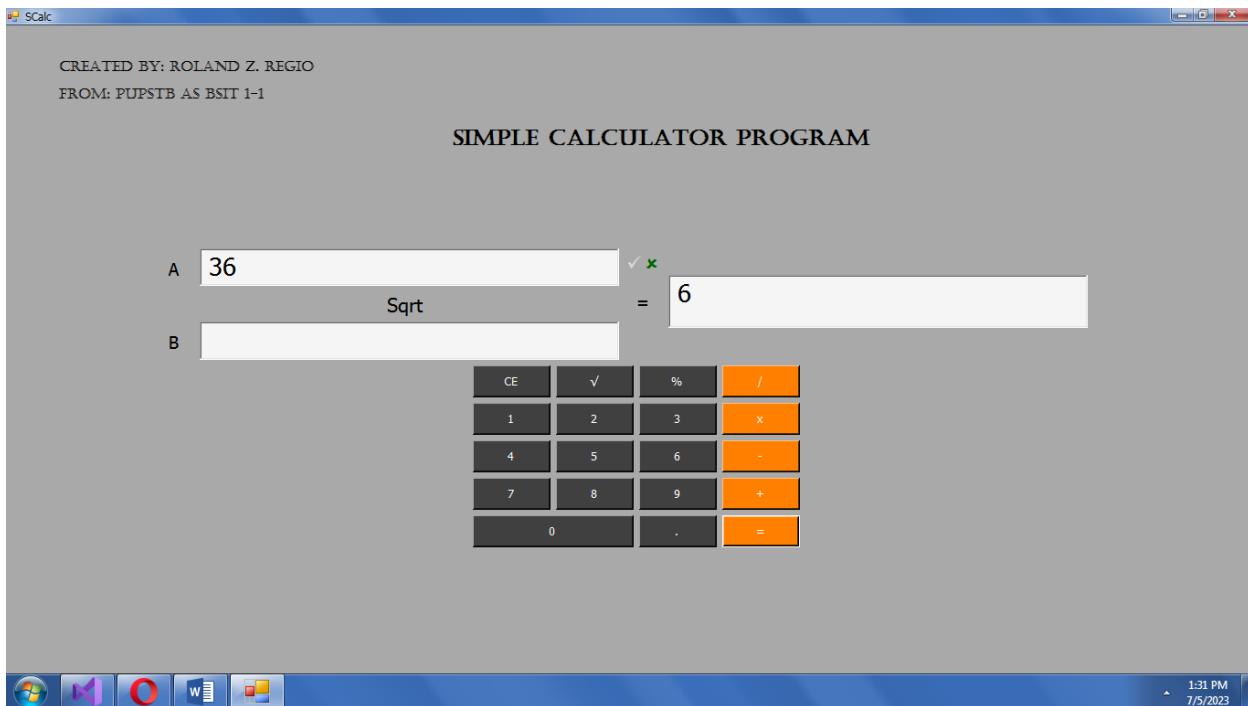

Division Function [A / B][Division Button]

Modulo Function [A % B][Modulo Button]

Square Root Function [\sqrt{A}][Square Root Button]

Square Root Function Message Box [If input comes from B and if input comes from both A & B]
